

Hape

2023
COLLECTION

Today, we are living in a time of ongoing uncertainty; and we all know there is no predefined roadmap that can guarantee a successful business. That being said, today more than ever, it is important to have a passionate and committed team around you. And while I remain vigilant about the ongoing uncertainties that lie ahead of us, when I look back over 2022, I am filled with pride and gratitude about the achievements and performances of our employees worldwide. United, resilient and responsive to opportunities, their mutual efforts exceeded expectations and led to another pivotal year for the Hape Group.

Increased Brand Awareness

In 2022, we continued to grow our brand awareness and product portfolio through strategic investments, and with over 40 Hape companies and thousands of employees globally, our Hape® toys are now giving children in more than 100 countries and regions meaningful play experiences.

We are also happy to have supportive partners who share our vision and are, through challenging times, willing to co-invest in new projects, such as the Flagship Store that was built in Mexico. This and other projects have allowed us to make our brands and products more accessible for customers. Moreover, we provided many memorable brand experiences for our customers by launching our Silk Road Project in shopping malls throughout China. The project created safe and communal public spaces where children could engage in open-ended play.

Strategic Investments for Future Growth

The progress made through our investments in product innovation also helped us to develop a better collection, and despite the challenges brought on by increased raw material prices, we managed to modify our pricing strategy to make our products more affordable. We have also expanded our product portfolio and launched many new items in 2023, including our brand new sustainably developed Green Planet Explorers line. These efforts will allow our partners and products to reach more children and families around the world with play-based learning.

We also welcomed the integration of our sub-brand, Beleduc, into the Hape Group this year. Beleduc specialises in educational toys and equipment for children in Kindergarten and Daycare centres, and to support Beleduc's further future development, Hape plans to invest USD 10 million within the next five years.

Continuing the Push Toward Greener Play

Sustainability has been at Hape's core since the beginning, and our research and development of renewable and sustainable materials for our toys has been an essential part of our continued mission to protect the environment for our children and future generations.

For many years now, rice composite materials, FASAL, wood flour composite and bamboo have become imperative elements of our product material portfolio. More recently, we added natural rubber, organic cotton and cork to our roster, further diversifying our portfolio of sustainable materials.

We also decided to step up our investments in renewable energy at our largest facility in order to power our production and office buildings with the installation of more solar panels. By the end of 2022, all our roofs will be covered with solar panels, which will produce 3.6 million kilowatt hours of electricity...

We also accelerated our pledge to reach the goal of 100% Forest Stewardship Council (FSC) certified content used in our products, and we are excited to announce that all our new wooden items launched in 2023 will be FSC-certified, and we aim to achieve 100% FSC certification for all Hape wooden items by 2025.

These and other such future sustainable initiatives will help us to reach our long-term goal of carbon-neutrality by 2026.

Optimizing Global Supply Chains

2022 was also another year in which global supply chains and their logistics were disrupted, despite it being more than two years after the COVID pandemic first emerged,

Faced with container shortages and increased maritime shipping costs, we strengthened our position by investing USD 10 million into two more manufacturing facilities in Europe, and our global production network will help us to stay flexible and responsive to future disruptions.

We continued to optimise our logistical flow and processes by investing into our new Logistic Centre in Songyang, China. The centre will help us to keep our supply chain short and flexible.

Love play, learn.

Play is at the heart of everything we do. Children love to play and with our toys they gain valuable life skills. Because when children play with our toys they learn so much more about themselves and the world around them.

QUADRILLA

Derived from the combination of two German words, "Quader" and "Rille", meaning "bricks" and "slots" respectively - which are also the main components of the game - Quadrilla's unique marble run system is "a lot like coding" (Wall Street Journal) and a perfect platform for STEAM education.

PolyM
BUILD & PLAY

**MADE IN
GERMANY**

PolyM® building bricks are produced in Germany, originally created by a father - Anton Meyer, German engineer - for his beloved daughters. Since 1980, the unique, round-edged and flexible construction system has been a hit among children and educators all over the world.

We use premium Polyethylene (LD-PE/HD-PE) for all PolyM building bricks. The safe and 100% recyclable plastic contains neither phthalates nor toxic chlorinated hydrocarbons and does not give off any harmful substances. Plus eco-friendly way of manufacturing, we assure you that only high quality construction kits can enter your little darlings' room.

HAPE PLAYLAND

A journey into Hape's retail solution

In the broad panorama of toys we want to stand out for our quality and attention to design, showing our range in new and inspiring ways.

The impression we want to give is:

Hape is playful, innovative, friendly, affordable, passionate and - more than anything - willing to make the world a playful place where children will never stop learning.

The best result in a few simple steps

Key features

- **More interaction:** demos, play tables, and displays to boost the fun and interactions.
- **Immersive shopping experiences:** the attractive graphics and decorations will provide children a more immersive shopping experience.
- **More traffic:** thanks to its new fresh look that resembles a play area, Hape Playland will generate more and more traffic.
- **Increase conversion rate:** by strongly communicating our passion and values, Hape Playland will increase the conversion rate.
- **Memorable experiences:** nothing makes parents happier than looking at their children having fun and learning.

Identify the area for Hape Playland.

Choose the categories to sell and displays to use.

Design the layout and the area.

Implement and furnish the area.

Enjoy a new and exciting Hape Playland!

Please contact our local sales rep for more information.
